CL=core length, ETL= estimated true length.

Au g/t = Intersection grade with no top-capping

TC g/t = Top-capping at 20 g/t Au. Used for calculating intersection containing individual samples with Au-grades >20 g/t.

Since January 2018 the top-capping is 40g/t Au at Central, 30g/t Au at Skiråsen and 20g/t Au at Avan and 20g/t Au at Risberget

Val = Validation

Inf = Infill

Exp = Expansion
Reg = Regional exploration
Twin=Twinhole
